

Interim SEG AKA Operating Guidelines Committee
Meeting Summary
June 28, 2005

Attendees: Bill Bailey, Teri Beard, Will Berson, Tom Chase (Moffett & Nichol), Alan Garrett, Larry Keegan, Hope Moorer, Morgan Rees (via phone), Tom Wright

Recommendations to Facilitator for the next SEG meeting agenda:

- Meeting Reports (USACE/GPA)
 - » Project Review Meeting, June 14-15
 - » Lead & Cooperating Agency Review, June 16
 - » Hydrodynamic Model Interagency Review, June 16-18
 - » Principals Meeting, Washington DC, June 23
- Savannah Harbor Expansion Project Schedule Update (USACE)
 - » Incorporation of Project Review Meeting information/duration changes
- EFDC/WASP Model Update (USACE). (*Note: Possible presentation by Steven Davie of Tetratech.*)
- Announcements (no discussion required)
 - » Aquifer Report Status – Work by contractor has been accepted. The report is undergoing internal USACE review in California.
 - » Start of Mitigation Planning on Project Schedule – July 20th. SEG members might want to review list of brainstorming ideas previously submitted to USACE.
 - » Sedimentation analysis – Waiting for work scope for coastal erosion studies to be received back from Wilmington USACE office.
 - » Ship Wake Analysis – in progress
 - » Sediment Quality Analysis – in progress
- Discuss challenge of disseminating information to SEG as model runs are completed and agencies start identifying impacts/mitigation options. (Attendees at SEG Interim Meeting) (*Note: Ben, please place this near the end of the agenda.*)

Homework recommendation for SEG members:

- Development of alternatives for long-term maintenance and use of scientific and technical data. Academic (ie Armstrong Atlantic State University or Skidaway Institute of Oceanography) vs. governmental (NOAA) entity? Funding source? How to organize data/information generated and collected during the project?
